

Description

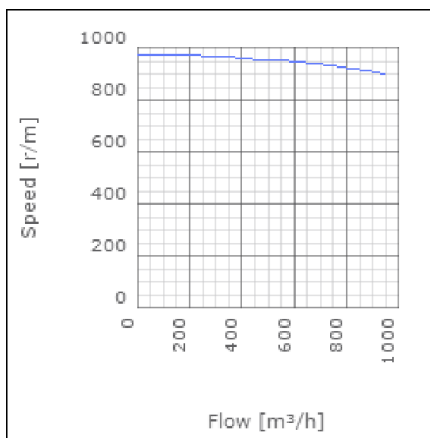

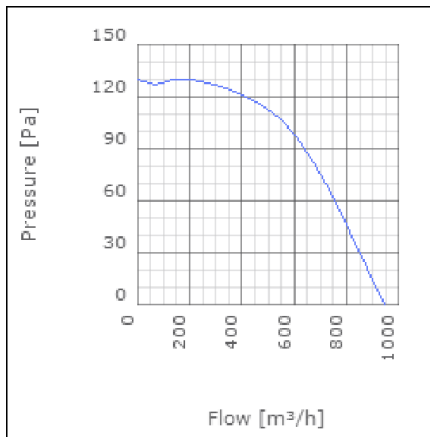

IRE is a range of insulated in-line centrifugal duct fans. They provide high pressure with low sound level. The IRE fans have good sound and fire insulation qualities provided by a 50mm pad of mineral wool. The high quality ball bearing mounted external rotor motors are maintenance free. They can be speed controlled from 0-100% by voltage variation. All motors are protected by approved thermo contacts. All 3-phase motors have ready fitted thermo contact leads for alarm functions etc. The fans have a strong galvanized steel housing incorporating a swing out design of the fan motor and impeller for easy cleaning and inspection.

Technical data

Parameter	Value	Unit
Voltage	230	V
Phase	1	~
Frequency	50	Hz
Power	0.14	kW
Current	0.63	A
R.p.m.	900	r/m
Max. temperature of transported air	100	°C
Max. temperature of transported air when speed-controlled	100	°C
Sound pressure level at 3 m	37	dB(A)
Length	658	mm
Width	525	mm
Height	342	mm
Weight	30	kg
Enclosure class, motor	44	IP
Insulation class, motor	F	
Capacitor	3	µF
Duct connection	400x200 mm
