

## Description

LPK is a range of compact in line duct fans. They benefit from very low profiles. The LPK 200 is only 20 mm higher than the duct diameter. This makes the LPK range an ideal choice where a low installed height is required. All fans are fitted with an external rotor motor whose bearings are sealed for life and a forward curved impeller for high performance and a very low sound level. Cleaning and maintenance are made easy with the swing out motor and impeller assembly.
